

SFC SAFE SCHOOL STATEMENT

Created February 2017
To be Reviewed - 2018

Abstract

It is important that all members of the St Francis College Community have a shared understanding of bullying behaviours, how they impact on people and how the college responds when these behaviours are demonstrated.

St Francis College is committed to taking action to protect students from bullying behaviours and to respond appropriately when they are demonstrated. St Francis College is a community of care and compassion; we value the dignity of all members of our school community. We are responsible and therefore committed to creating a safe and supportive environment where all people are empowered to reach their potential.

WHAT IS BULLYING BEHAVIOUR

Bullying behaviour is repeated verbal, physical, social or psychological behaviour that is harmful and involves the misuse of power by an individual or group towards one or more persons.

THE KEY FEATURES OF BULLYING BEHAVIOUR ARE THAT IT:

- causes hurt and distress,
- Is repeated,
- Involves the use of power in an unfair way.

Although it is neither respectful nor acceptable if someone behaves in a mean or aggressive way on one occasion, it is not considered bullying. A fight or disagreement between students of equal power or status is not considered bullying behaviour.

Bullying is when someone targets another person, again and again, and intentionally attempts to make them feel bad. They say or do many mean and hurtful things, make fun of them often, try to stop them from joining in or make others not like them.

Although it is not nice if someone says or does something mean to someone else, this is not immediately bullying. It also is not bullying if students of the same age have a one-off argument. Bullying is NOT:

- mutual arguments and disagreements (where there is no power imbalance)
- not liking someone or single acts of social rejection
- one-off acts of meanness or spite
- isolated incidents of aggression, intimidation or violence.

TYPES OF BULLYING BEHAVIOUR

1. Physical bullying

This is when a person (or group of people) uses physical actions to bully, such as hitting, poking, tripping or pushing.

Repeatedly and intentionally damaging someone's belongings is also physical bullying.

2. Verbal bullying

Repeated or systematic name calling, insults, homophobic, sexist, derogatory or racist remarks and verbal abuse.

3. Covert bullying

Such as lying about someone, spreading rumours, playing a nasty joke that makes the person feel humiliated or powerless, mimicking or deliberately excluding someone.

4. Psychological bullying

For example, threatening, manipulating or stalking someone.

5. Cyber bullying

Using technology, such as email, mobile phones, chat rooms, and social networking sites to bully verbally, socially or psychologically.

WHAT IS CYBER BULLYING?

- Sending hateful or threatening comments or pictures via mobile phone or the Internet and by Social Networking sites and apps such as and Facebook, Snapchat, Instagram, Twitter, Music.ly, Tumblr.
- Using modern technologies to engage in the social exclusion of someone and in hate group recruitment.
- Posting rude, explicit or embarrassing messages or pictures about someone on the internet.
- Stealing someone's identity in order to harm them in some way.
- Putting pressure on a person to send revealing or compromising pictures of themselves.
- Covertly filming, recording or taking a picture of someone and posting the files on the internet to cause hurt.
- 'Outing' and circulating confidential information about someone.
- Using aliases and fake names in chat rooms and on Social Networking sites in order to harass and upset.
- Engaging in cyber-stalking and the invading of privacy.
- Online "fights" using electronic messages with inappropriate/angry and obscene messages.

SEXTING

Sexting is the sending of sexually explicit messages or photographs of oneself or others, using mobile phone

technology either by request or spontaneously.

It can also include posting of this material online. A student's current, or potential

romantic partner, may be the source of a request to engage in

sexting. Such photos may be sent (without permission) to many other people, or used to coerce or blackmail after a relationship break-up.

Using fake names, passwords and avatars does not protect the identity of a cyber bully. Technologies exist to identify those who misuse modern technologies to harm others.

STUDENTS NEED TO REMEMBER THAT SOMETHING SENT ELECTRONICALLY CAN NEVER BE ENTIRELY REMOVED EVEN WITH A PRESS OF THE 'DELETE' BUTTON.

HOW DOES ST FRANCIS COLLEGE DEAL WITH BULLYING BEHAVIOURS?

Bullying behaviour is in conflict with St Francis College's values and Positive Behaviour for Learning framework. The college is committed to providing an educational environment in which students feel valued and safe.

Currently at St Francis College our bullying behaviour responses are aimed at creating a proactive and educational environment. We operate from the philosophy that teaching positive behaviour will encourage students to proactively respect each other.

that the repeated behaviour is bullying behaviour and you have the right to feel safe.

Inform

the students who engage in bullying behaviour that you want them to stop. Name the behaviour and be assertive.

Tell

a responsible adult about the bullying.

Evaluate

the situation. If it doesn't improve, seek further help.

IF YOU ARE BEING SUBJECTED TO BULLYING BEHAVIOURS THESE ARE THE PEOPLE IN THE ST FRANCIS COLLEGE COMMUNITY THAT YOU CAN TALK TO:

HOW TO HELP A STUDENT WHO HAS EXPERIENCED BULLYING BEHAVIOUR?

The most important thing a parent can do to help a student who is experiencing bullying behaviour is to provide love, support, reassurance and encourage open communication within the home. A report of bullying should always be taken seriously.

Introducing good management systems in the home that monitor the presence of cyber bullying is important.

THIS INCLUDES BUT IS NOT LIMITED TO:

- Actively monitoring your student's online involvement.
- Reminding students not to share personal details, passwords, security or access information with anyone, even their closest friends.
- Monitor your student's social media activity without involving yourself in negative conduct.
- Advise your student to record evidence of cyber bullying and report to the relevant adults.
- Remind and model to your student's responsible online behaviour.

- Become more computer literate and educate yourself about privacy settings and internet filters.
- Ensure that you maintain your parental control in terms of social networking. You have a right to ask for your student's password to monitor their online activity. Make sure that they are aware of this.
- Be proactive in establishing positive relationships with your student's friends and families
- Encourage your student to conduct themselves properly in "Cyberia" and to ensure that their "Digital Footprint" is one they would be proud of.
- Ensure all technology use is in an open family area so that you can monitor online activity.

ONE'S "DIGITAL FOOTPRINT" MAY BE ACCESSED MANY YEARS AFTER MATERIAL IS POSTED ONLINE AND USED BY OTHERS, E.G. PROSPECTIVE EMPLOYERS AND THE MEDIA.

HOW CAN WE WORK TOGETHER?

The school appreciates being able to partner with parents to solve bullying problems. Sometimes a student can be reluctant to tell their parents. Parents are invited and encouraged to contact the school should they become aware of their student being subject to bullying behaviours.

REMEMBER:

BE PATIENT. THE COLLEGE IS COMMITTED TO INVESTIGATING A BULLYING ALLEGATION IN A MANNER THAT PROTECTS THE RIGHTS OF ALL INVOLVED, INCLUDING THE STUDENT EXHIBITING BULLYING BEHAVIOUR.

- THIS IS NOT THE COLLEGE FAILING TO TAKE IMMEDIATE ACTION TO ISSUE CONSEQUENCES, RATHER THE EXERCISING OF PROCEDURAL FAIRNESS.
- IT IS IMPORTANT TO LET THE COLLEGE INVESTIGATE THE MATTER RATHER THAN CHALLENGING THE STUDENT WHO HAS DEMONSTRATED BULLYING BEHAVIOUR OR THEIR PARENT.
