**NEXT STEP 2015**

**DESTINATIONS OF 2014 YEAR 12s**

St Francis' College

**Introduction**

This page presents a summary of results of the annual Next Step survey for St Francis' College. The Next Step survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2014, whether they attended a government, Catholic or independent school, or a TAFE secondary college. The Queensland Government Statistician’s Office conducted the survey between March and June 2015, approximately six months after the young people left school. Responses were collected online and via computer-assisted telephone interviewing.

**Response rate for St Francis' College**

Table 1 below reports the response rate for St Francis' College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended St Francis' College in 2014.

Due to the very low response rate, these results should be interpreted and used with utmost caution.

**Definitions of main destinations**

The pathways of Year 12 completers were categorised into ten main destinations. Year 12 completers who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep).

**Summary of findings**

In 2015, 58.6 per cent of young people who completed Year 12 at St Francis’ College in 2014 continued in some recognised form of education and training in the year after they left school.

The most common study destination was Bachelor Degree (34.5 per cent). The combined VET study destinations accounted for 24.1 per cent of respondents, including 20.7 per cent in campus-based VET programs, with 10.3 per cent of Year 12 completers entering programs at Certificate IV level or higher.

3.4 per cent commenced employment-based training, all as trainees.

In addition to the above study destinations, a further 6.9 per cent of respondents from this school deferred a tertiary offer in 2015 (deferrers are shown in Figure 1 in their current destination).

41.4 per cent did not enter post-school education or training, and were either employed (17.2 per cent) or seeking work (24.1 per cent).
