Students come first at St Francis College. Our Staff is committed to providing a high quality education and care deeply about student wellbeing. We recognise the very important role that parents play in the lives of our precious students and value parent engagement in the life of the school.

Last year when the school community reviewed our Parents and Friends’ model, we recognised the need to create a new structure with the intent of increasing the level of parent involvement in the school. The purpose of this Community Family Engagement Model is to:

- Encourage positive relationships between families and the College
- Enhance how we connect with one another
- Offer informal social events rather than formal meetings
- Promote the shared responsibility for learning, recognising that learning occurs beyond the school gates
- Raise awareness of opportunities and resources in the school and local community.

The St Francis motto is “Simplicity and Harmony”. We believe that this new approach is simple in structure and encourages harmonious relationships within our school community.
