What a wonderful term we have had! The newsletters each week provide a snapshot of the varied classroom and co-curricula learning that students and staff engage in each week. We are blessed to have a very busy, happy school. As I write this I have just watched the students and staff engage with ‘Cool Connections’. This is a Prep to 12 Activity we hold each term, where we come together as family groups (Jagun, Kurrawa, Wimulli, Yaraay) to work on a project. The projects are meaningful but more important are the connection and learning that happens in a P – 12 context.

I am so proud of the way our young people work together – they are good natured and nurturing with each other and work co-operatively with their teachers.

We look forward to our Spring holidays. While we should not wish time away, staff and students are counting down the days until holidays and no doubt families are looking forward to some relaxing time together. We have worked hard this term, we look forward to some ‘time out’ to recharge before we welcome the challenges of Term 4.

We hope the 7 -12 learners and teachers will be able to move into our beautiful new drama, music, dance and graphics facilities next term. We are pleased with the progress of the new Prep – 6 classrooms which include a new prep classroom and some refurbishments of the old ones.

Our staff prayer on Thursday (prepared so beautifully by Sr Lee) was a reflection on gratitude. We have much to be grateful for at St Francis College – our dedicated staff, our hardworking beautiful children, our supportive and nurturing parents and caregivers – the list goes on.

We have some exciting news! We congratulate Mr Paul Blinkhoff on his appointment to the Principal position at St Oliver Plunkett School, Cannon Hill from 2015. This is a well deserved appointment. We are grateful for all Paul has contributed at St Francis College, sad to see him go, but happy for him as he embarks on a new adventure. Well done Paul!!

Have a restful break and we look forward to working together in Term 4.

Happy Spring Break

Tricia, Paul and Les

Due to the construction work, the whole College including the Office will be closed the first week of the School holidays 22nd – 26th September 2014

Raising kids to be lifelong learners

The world has changed dramatically since we went to school. The pace of change is now so fast that what may have been in vogue just a few years ago is totally outmoded today.

The world has changed dramatically since we went to school. The pace of change is now so fast that what may have been in vogue just a few years ago is totally outmoded today.

Technology is one area that constantly changes and renewes. It was only a few ago that CDs replaced cassettes. Now I drive a car with an iPod adapter but no CD player. CDs are so 2009! Let’s not even talk about vinyl records...

Advances in technology mean that we constantly need to change our skills and knowledge, both at home and at work, to avoid being left behind. The new social divide is not so much between rich and poor, but between those who can adapt to change and those who can’t. Adapting to change requires you to be constantly learning.

Modern education is no longer about preparing kids to get a job. As the world now expects and rewards continuous learners, today’s schools try their best to help kids see themselves as lifelong learners who are able to easily adapt to change.

Kids are natural copycats

As you well know, kids learn what they live. If you want your kids to value learning then you need to go first. Kids need to see that their parents value learning, not just by giving it lip-service, but by embracing change and being active learners themselves.

There are plenty of ways you can show kids that you are a constant learner. Challenging yourself in the kitchen, using new social media, and researching holidays online are simple ways to show kids that you embrace change and that you are willing to learn new skills and knowledge.

Kids learn in different ways

It also helps to talk with kids about different ways of learning and different ways of being smart. The modern education scene is familiar with the concept of multiple intelligences and different ways of learning. It really helps if you know your preferred style and where you are smart, so you can help your kids to do the same. For instance, I’m a practical learner who learns best by doing rather than being shown. I can be given instructions to work out something technical, but I won’t learn it until I try it a few times. I also know that I do my best problem solving when I have a pen in my hand or I’m in front of a keyboard.

My son, on the other hand, is a very different learner. He is very visual and loves to learn by using charts and other prompts. He’s also at his problem-solving best in a physical environment such as a kitchen or in the great outdoors. He does his most creative thinking when he’s on the move rather than in front of a keyboard. This sort of self-knowledge about learning preferences aids more effective learning.

Mistakes are part of learning

It also helps if you can reinforce to kids that mistakes are part of learning. In fact, most kids fail their way to success. That’s how they learned to walk, talk and play with each other. Your attitude to errors will affect your children’s view of themselves as learners. If you overreact when kids don’t get things right then kids will, in all likelihood, cease taking risks for fear of making mistakes. However, if you see mistakes as learning opportunities, or simply the first step to getting things right, then kids are more likely to develop a healthy attitude to learning, and realise that really effective learning takes time, effort and energy.

As parents we need to nurture questioning, curiosity and problem-solving in our kids so they hook into the concept of being continuous learners. The world we are preparing them for demands nothing less!

Uniform News

At St Francis College our school rules are Respect self, Respect others and Respect the environment. One of the ways we practise these rules is by taking pride in our school and ourselves by following our uniform code.

When we are dressed correctly we convey that we are proud to be a St Francis College student. We would like to remind you the College rules state students should wear:

- **Black leather formal school shoes, clean and polished.**
- **Navy Blue, knitted jumper with V-neck or navy blue SFC fleecy jacket.**
- **The only acceptable jewellery is 2 small studs (1 in each ear) or small sleepers and a watch.**
- **White socks for girls and Grey College socks for boys (NO BLACK SOCKS)**

We ask that parents continue to support St Francis College to maintain our high standard of personal presentation, by ensuring that your child’s uniform is in good order and complies with the College dress code. The September holidays are a good opportunity to check the uniform is in order.

We realise that sometimes circumstances hinder students from wearing the correct uniform. If this occurs a note explaining the reason behind the problem should be sent with the student in their diary. The explanatory note should be signed by the students’ PC Teacher or Year Co-ordinator upon arrival at school and carried by the student at all times during the school day and presented if required.

It is expected that uniform non-compliance issues would be rectified over the holidays. Please contact year coordinators Megan Philpott Year 7 & 8, James Boucher Year 9, Cher Williams Year 10, Michelle Ferguson Year 11, Tracy Steer Year 12 or Michelle Kelly Assistant Principal Pastoral if you have any concerns regarding uniform.

We thank parents and caregivers for their attention to this matter and for partnering with us in the education of our young people.

Michelle Kelly — Assistant Principal Pastoral
On Monday 15th September, all P-12 students participated in a Cool Connections activity to make Family Group coming together flags. The flags were in family group colours and students were asked to draw a symbol on both sides and add their names, the date, class and a prayer, aspiration or goal. The flags were then stapled onto cord and strung up in various places around the College. It was a great interactive session enjoyed by all the students.

News From Visual Arts Desk

Artwaves Exhibition @ Logan Art Gallery

This year, three students from St Francis College have had their artwork selected to be a part of the Artwaves Exhibition at the Logan Art Gallery. The students are Chentelle Chua (year 11), Mary Benedetta (year 10) and Amy Furness (year 10). The exhibition opens this Friday 19th September from 6pm and continues until 25th October.

Congratulations to all of the students who will be presenting their work - it’s an amazing achievement to have your work exhibited in a public gallery! Amy

Ms Rachel Kilby - Visual Arts
During Science Week the year 5 students were educated about Horticulture, biology and the environment by the senior students. The students spent a lesson in the horticultural department taking part in planting activities taught by the year 12 biology students. The planting activity taught the students basic planting skills and knowledge about the importance of taking care of our environment, plant life cycles, soil structures and planting techniques. The activity also gave our year 12 students the opportunity to share their own learned skills and knowledge with the younger students.

Students were also taken on tours around the senior science laboratories, shown biological specimens, science equipment and the St Francis wetlands.

Mr Neil Murphy (Head of Science)

We have had a really exciting term 3 at St Francis College working in partnership with the ITD and science departments. The students have been planning and implementing a “Garden to Plate” program with a main focus of sustainability, stewardship and ecological practice. The two main departments of ITD and Science (Horticulture) have come together to give the year 10 students the opportunity to create seven large vegetable plots, from excavation, construction and planting stages of vegetables that we can utilize within the College hospitality department. This is an exciting time for the students to learn new skills, develop knowledge and understanding about food production and actually witness its journey from garden to consumption. Keep an eye out for term 4 updates on the harvesting of our eatable gardens.

Jim Boucher (ITD Teacher) and

Mr Neil Murphy (Science Coordinator)

need to help you settle in to university study and living.

UPDATES FROM THE UNIVERSITY OF QUEENSLAND (UQ)
Maths B, Biology and Chemistry intensive mode courses –
Successful completion of these courses will meet
prerequisites in these subjects for UQ degree programs. The
courses will run from 25 November - 20 December 2014.
Results will be available for the QTAC January 2015 offer

Architectural Design Workshop – This design workshop will be
held from 2 – 3 October 2014. Participants will be introduced
to the learning environment they will encounter in the archi-
tectural design course at UQ. Visit http://
information.

Nursing and Midwifery – UQ nursing and midwifery students
do most of their learning at clinical schools. When you apply
through QTAC, you will be able to nominate your preferred
clinical schools. Access the clinical schools and QTAC
codes at http://www.nursing-midwifery.uq.edu.au/clinical-
schools.

New majors in B Science at the Gatton campus – The new
majors are Animal and Veterinary Bioscience and Soil and
Plant Biosciences. The B Science prerequisites of English,
Maths B plus one of Physics or Chemistry will apply. Do a
search for B Science (Gatton) at http://www.uq.edu.au/
study/ to read about these majors.

B Advanced Science – This new program is designed for high
achieving science students. It is a four year program that
differs from the B Science by offering courses at an
advanced level and incorporating an honours year during
which students will undertake a research project.
Prerequisites are English, Maths B plus two of Agricultural
Science, Biology, Chemistry, Earth Science, Maths C or
Physics. An OP level of 1 – 3 is anticipated. Do a search
for this course at http://www.uq.edu.au/study/.

Enhanced Studies Program (ESP) applications close soon –
High achieving Year 11 students are invited to apply for this
program during which they undertake a university subject.
Applications close on 31 October 2014. Find out more at

UQ Academic Scholarships are open for applications – These
scholarships consist of the UQ Vice-Chancellor’s Scholarship, the UQ
Excellence Scholarship and the UQ
program/uq-academic-scholarship-program for selection
criteria and the application process. The application
due date is 31 October 2014.

UQ B Arts advantage – UQ offers a flexible Arts program,
which has enabled its graduates to find careers in a wide
range of fields. Read about the careers of some of these

LOW INCOME HEALTH CARE CARD
Students may be eligible for this card if they are on a low
income and meet the Low Income Health Care Card income test
(this card is not subject to an assets test). Find out more at
low-income-health-care-card

Logan McDonald’s School Holiday Sports Program

If you are looking for fun, excitement and sports action during the September school holidays, search no further! Logan City Council, in partnership with Logan McDonald’s Restaurants, deliver an award-winning program for children aged 6-12 years.

Local children have the opportunity to get active, have fun, and participate in a variety of sporting activities. Sports provided in previous programs have included basketball, netball, futsal, circus, hip hop, touch, hockey, golf and many more.

The program offers specialist coaching in each sporting code and sport skills are adapted to suit various ages.

The program is currently being offered at Cornubia Park Sports Centre and in four school-based programs at Beenleigh, Browns Plains, Marsden and Springwood State High Schools.

The dates for the next program:

- 22 – 26 September  
  Beenleigh, Browns Plains, Marsden and Springwood.

- 29 Sept – 3 October  
  Cornubia Park Sports Centre
